## Viking SilCoat A great 'repair-and-maintenance' product

Viking SilCoat is a great option for a building owner looking to extend the water-tightness of their building for a few more years without over-capitalising eg: replacing its roof. SilCoat is also an excellent option when there are so many roof penetrations that waterproofing with a sheet membrane is less practical.

Available in white and grey, Viking SilCoat is a UV resistant, liquid-applied membrane system designed specifically for remedial work.

Used over existing roof surfaces, Viking SilCoat provides protection to extend the life of a roof.

# Product Features

## Watertight Integrity

As a silicone based coating system, Viking SilCoat is designed to be the finished product, creating a smooth surface that offers excellent resistance to mould and mildew, making it easy to maintain. SilCoat forms a seamless finish and can tolerate pooling water.

Easy application makes SilCoat both efficient and economical, while maintaining maximum durability.

## Reduction in Waste

In many instances, there is no need to remove and dump the old roof surface, as Viking SilCoat can be applied over a wide-range of existing roof surfaces\* leading to a reduction in waste.

## Viking Roofspec Proven Record

A combination of:

- 50 years experience of successfully supplying sheet membrane systems
- Alignment to a select network of licensed and approved applicators
- Installing only world-class membrane systems that have been certified and appraised by nationally and/or internationally recognised product accreditation bodies

This has been instrumental in ensuring Viking Roofspec has one of, if not the lowest remedial rate in the waterproofing membrane industry.

## A High Standard of Workmanship

To ensure a professional and watertight finish, only Viking Approved Applicators are eligible to install Viking Roofspec SilCoat systems. These standards are vitally important when it comes to below ground waterproofing, as it is imperative that workmanship is exemplary.

## Warranties of Substance

Viking SilCoat systems come with a comprehensive 5-year product warranty.

Not all warranties are equal. The Tiri Group, an established, reputable New Zealand company with an annual turnover exceeding \$300 million, backs Viking Roofspec's warranties. The Tiri Group will honour its warranties in the unlikely event of a product issue. For more information visit our website [www.vikingroofspec.co.nz](http://www.vikingroofspec.co.nz)

\*only if an invasive investigation has confirmed the integrity of the substrate. Please note: decayed substrates require complete replacement.
